SUMMARY

A budding Full-Stack Web Developer and an IT undergrad of VSSUT Burla with a keen interest in DevOps & Blockchain technologies. With hands-on experience in the MERN stack, I specialize in developing efficient and user-friendly web applications. I am committed to continuous learning and exploration of cutting-edge technologies to create impactful DevOps & blockchain solutions that enhance user experiences and system performance.

WORK EXPERIENCE

Enigma Vssut

- At Enigma, I have actively contributed to the club's website using Next.js, Typescript and Material UI, ensuring a modern and user-friendly interface. I have developed several impactful projects, including a gallery app, a resume builder, and an API capable of serving various file types such as HTML, PDF, text, and JPEG. My role has allowed me to hone my skills in full-stack development, project planning, and implementation. I am passionate about creating scalable and efficient solutions that enhance user experience and operational functionality.

Nss Vssut

- At Nss Vssut, I played an active role in organizing impactful events, including an NSS special camp and a mega donation camp at my university. These experiences allowed me to develop strong leadership and teamwork skills while contributing to social causes and community engagement. My involvement in these initiatives reflects my dedication to fostering meaningful change and creating a positive impact.

TECHNICAL SKILLS

- **Frontend:** Css, Javascript, ReactJs, Redux, Typescript, TailwindCss, ShadcnUI, MUI, NextJS
- **Backend:** Node.Js, Express.Js, Prisma, Orms,
- **Database:** MongoDB, MySql, PostgreSQL, Firebase
